float\_fx Pedestal with cross-tambour

# wiesner hager

## **Environmental Product Declaration**

EPD

Viesner-Hager Möbel GmbH	Manufacturer
inzer Straße 22	Declaration holder
A-4950 Altheim	
el. 0043 7723 460-0	
http://www.wiesner-hager.com/en/	
A 22012 1634 4023-055 03297740230	EPD number
023-055 float_fx	Declared product
oat_fx Pedestal with cross-tambour	
his declaration was compiled according to ISO 14025 and EN 15804 type B. It	Purpose
lescribes the environmental rating of the listed product and gives the possibility	
o compare it with other similar products.	
The content of this declaration is based on the results of the operational life cycle	Data origin
issessment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used	
eneric data comes from acknowledged life cycle management databases and	
surrent EPD's of the declaration holders upstream products and are calculated	
sing the CML method.	
https://www.wiesner-hager.com/en/about-us/sustainability/life-cycle-assessment/	
The procedure to compile this declaration was audited on 14 th September 2023	Auditing
by TÜV Austria GmbH.	
DiplIng. Dr. Jürgen Hain, TÜV Austria GmbH, Wien	Auditor
By means of the certificate TA 22012 1634 from 26 th September 2023, TÜV	Certification
Austria GmbH authorizes the declaration holder to generate EPD type III.	
Download certificate	
The certificate is valid until 30 th September 2026. The compliance of the	Validity
equirements will be ensured by annual, internal and external evaluations.	
Gerhard Steigthaler, Master of Sciene, environmental engineer	Issuer

Functiona uni	The general information of the LCA refers to whole lifecycle, beginning with the raw material make, the manufacturing of the product until the disposal of <i>one</i> unit of the product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass.
Application	Office furniture, acc. to EN 14073-2, EN 14073-3 and EN 14074
Identification o	4023-055 float_fx float_fx Pedestal with cross-tambour, measurements: 53 x 48 x 110 cm (WxDxH)
Description o	Wherever mobile storage space is wanted in an office, float_fx trolleys are of great use. Being mobile on castors and provided with grab handles, they are easily moved to wherever they are needed. When coming with worktops, the trolleys can also be used as temporary standing workstation or for stand-up meetings. The quality standards of float_fx trolleys are reflected in a number of details: The castors, for example, are not fixed each of them separately, but via a sturdy steel bottom construction with integral corner protection for two castors, each. The stronger tambour doors with wider slats and a high-grade and robust aluminium handle bar ensure greater stability. The Hettich® drawer runners on ball bearings provide for maximum ease of use. float_fx trolleys offer plenty of storage space while needing just little space themselves. Depending on the model, they can be equipped with up to five drawers and a pen tray in variable, modular design.
Configuration o	top- and bottom panel D56 white laminate (MFC); side and back panel D56 white laminate (MFC); colour tambour a.handle strip 32 silver; locking system with random numbers; interior equipment without interior equipment; colour of metal 55 eloxal silver; leg finish soft castors

Water-based varnish	-	-	-	-
Powder coatings	Polyester powder lacquer	0,03 kg	0,0%	no
Powder coatings	Polyester powder lacquer	0,004 kg	0,0%	yes

The product includes 0,054 kg of PVC.

 $$^{1}$\,dry$  matter  $$^{2}$\,uncured$   $^{3}$  acc. EG Reg. No 1272/2008

The following certificates are valid only for the mentioned raw-materials but not for the final product:

Decorative chipboard: FSC Standard - certificate SGSCH-COC-110039, licence FSC-C017963

### Recycling rate (EoL)

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 520 MJ. This is equivalent to 14,5 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
