2130-203 grace	Declared product
grace Small lounge chair	
This declaration was compiled according to ISO 14025 and EN 15804 type B. It	Purpose
describes the environmental rating of the listed product and gives the possibility	
to compare it with other similar products.	
The content of this declaration is based on the results of the operational life cycle	Data origin
assessment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used	
generic data comes from acknowledged life cycle management databases and	
current EPD's of the declaration holders upstream products and are calculated	
using the CML method.

Functiona uni	The general information of the LCA refers to whole lifecycle, beginning with the raw naterial make, the manufacturing of the product until the disposal of <i>one</i> unit of the product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass.

## Recycling rate (EoL)

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 327 MJ. This is equivalent to 9,1 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
