# **Environmental Product Declaration**

wiesner hager

EPD

Design: neunzig° design

Manufacture	Wiesner-Hager Möbel GmbH
Declaration holde	Linzer Straße 22
	A-4950 Altheim
	Tel. 0043 7723 460-0
	http://www.wiesner-hager.com/en/
EPD numbe	TA 22012 1634 5430-101 03297740060
Declared produc	5430-101 poi
	poi Swivel chair
Purpos	This declaration was compiled according to ISO 14025 and EN 15804 type B. It
	describes the environmental rating of the listed product and gives the possibility
	to compare it with other similar products.
Data origi	The content of this declaration is based on the results of the operational life cycle
	assessment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used
	generic data comes from acknowledged life cycle management databases and
	current EPD's of the declaration holders upstream products and are calculated
	using the CML method.
	https://www.wiesner-hager.com/en/about-us/sustainability/life-cycle-assessment/
Auditing	The procedure to compile this declaration was audited on 14 th September 2023
	by TÜV Austria GmbH.
Audito	DiplIng. Dr. Jürgen Hain, TÜV Austria GmbH, Wien
Certificatio	By means of the certificate TA 22012 1634 from 26 th September 2023, TÜV
	Austria GmbH authorizes the declaration holder to generate EPD type III.
	Download certificate
Validit	The certificate is valid until 30 th September 2026. The compliance of the
	requirements will be ensured by annual, internal and external evaluations.
Issue	Gerhard Steigthaler, Master of Sciene, environmental engineer
Date of issu	29. February 2024

Functiona	The general information of the LCA refers to whole lifecycle, beginning with the raw material make, the manufacturing of the product until the disposal of <i>one</i> unit of the
uni	product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass.
Application	Office swivel chair, acc. to EN 1335-1, EN 1335-2 and EN 1335-3 GS – tested safety, certified ergonomics reddot design award winner 2013
Identification of product	5430-101 poi poi Swivel chair, seat upholstered, back with mesh
Description of product	poi represents a completely new generation of swivel chairs: the perfect combination of aesthetics, comfort and well-engineered ergonomics makes poi both unique and economically attractive. The characteristic feature of poi is the elegant monocoque design. The colour variations of the seat upholstery add a certain touch to the office and make poi versatile- stylish, classy, or young and fresh. The ergonomic and dynamic back frame in black or white is covered with a semi-transparent net mesh. poi stands for high seating comfort. By means of the laterally arranged quick adjustment of spring force the reclining pressure can be adapted to the body weight via two and a half turns at most. The next-generation synchro-mechanism permits a finely coordinated movement of seat and back. A sliding seat permits the horizontal adjustment of the seat depth. In combination with the height adjustable lumbar support, the infinitely variable seat height, and the multi-dimensional armrest the chair can be perfectly adapted to the body height.
Configuration of	cover 1 fabric S3140 plain black; colour of plastic 95 black; colour of plastic 2 210 black; mechanism synchronised mechanism without forward seat tilt; swivel base aluminium; colour of metal swivel base polished aluminium; leg finish hard castors

The product is free of halogenated plastics (PVC).

<sup>1</sup> dry matter <sup>2</sup> uncured <sup>3</sup> acc. EG Reg. No 1272/2008

#### Material certificates

The following certificates are valid only for the mentioned raw-materials but not for the final product:

Upholstery fabric: Oeko-Tex Standard100 - certificate 073313.O, product class II Upholstery materials: Oeko-Tex Standard100 - certificate AMM 17680, product class I

# Recycling rate (EoL)

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 222 MJ. This is equivalent to 6,2 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
