| TA 22012 1634 4704-124 03297740250 | EPD numbe |
| 4704-124 wh_locker wh_locker Cabinet | Declared product |
| This declaration was compiled according to ISO 14025 and EN 15804 type B. It describes the environmental rating of the listed product and gives the possibility to compare it with other similar products. | Purpose |
| The content of this declaration is based on the results of the operational life cycle assessment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used generic data comes from acknowledged life cycle management databases and current EPD's of the declaration holders upstream products and are calculated using the CML method. https://www.wiesner-hager.com/en/about-us/sustainability/life-cycle-assessment/ | Data origin |
| The procedure to compile this declaration was audited on 14 th September 2023 by TÜV Austria GmbH. | Auditing |
| DiplIng. Dr. Jürgen Hain, TÜV Austria GmbH, Wien | Audito |
| By means of the certificate TA 22012 1634 from 26 th September 2023, TÜV Austria GmbH authorizes the declaration holder to generate EPD type III. Download certificate | Certification |
| The certificate is valid until 30 th September 2026. The compliance of the requirements will be ensured by annual, internal and external evaluations. | Validit |
| Gerhard Steigthaler, Master of Sciene, environmental engineer | Issue |

| The general information of the LCA refers to whole lifecycle, beginning with the raw material make, the manufacturing of the product until the disposal of <i>one</i> unit of the product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass. | Functional unit |

| 4704-124 wh_locker wh_locker Cabinet, 3 x 4, measurements: 136 x 44 x 207 cm (WxDxH) | Identification of product |
| Attractive storage space. The wh_locker is a minimalist, stylish cabinet locker system specially developed for co-working, desk-sharing and temporary work in open space offices. The individual modules in double and triple combinations can be assembled as building blocks and thus be used for a large number of people. The fronts of the individual lockers are available in different variants – optionally with recessed handles, combination locks, locker numbers and letter slots. | Description of product |
| cover plate D56 white laminate (MFC); inner body D32 anthracite laminate (MFC); back panel D32 anthracite laminate (MFC); safeguard against tilting to be implemented by the customer; colour of metal 38M anthracite; leg finish plastic glides, adjustable | Configuration of |

Material composition

The proportion of secondary raw material in this product is 29,9%. It includes 93,9% renewable materials.

Use of laquer and adhesives

| Application | Chemical characterisation | Weight ¹ | VOC ² | Classific.3 |
|----------------------|---------------------------|---------------------|------------------|-------------|
| Wood glues | PVAC glue | 0,24 kg | 0,1% | no |

| Powder coatings | Polyester powder lacquer | 0,062 kg | 0,0% | no |
| Solvent-based varnis | - | - | - | - |

The product includes 0,008 kg of PVC.

 $^{1}\,dry$ matter $^{2}\,uncured$ 3 acc. EG Reg. No 1272/2008

Material certificates

The following certificates are valid only for the mentioned raw-materials but not for the final product:

Decorative chipboard: FSC Standard - certificate SGSCH-COC-110046, licence CH17/0899.00 Decorative chipboard: FSC Standard - certificate SGSCH-COC-110039, licence FSC-C017963

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 2191 MJ. This is equivalent to 61,1 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
