2012 1634 6204-103 03297740090	EPD number
-103 delv	Declared product
Conference chair with aluminium arms	
declaration was compiled according to ISO 14025 and EN 15804 type B. It ribes the environmental rating of the listed product and gives the possibility mpare it with other similar products.	Purpose
content of this declaration is based on the results of the operational life cycle ssment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used eric data comes from acknowledged life cycle management databases and ent EPD's of the declaration holders upstream products and are calculated g the CML method.	Data origin
://www.wiesner-hager.com/en/about-us/sustainability/life-cycle-assessment/	Auditing
ÜV Austria GmbH.	Additing

The general information of the LCA refers to whole lifecycle, beginning with the raw material make, the manufacturing of the product until the disposal of <i>one</i> unit of the product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass.	Functional unit

6204-103 delv delv Conference chair with aluminium arms, seat and back upholstered	Identification of product
The smart conference chair. The innovative, ergonomic design of the delv conference swivel chair combines a dynamic seating philosophy with rendsetting kinetics: the new twist-balance mechanism replaces conventional mechanisms and enhances ergonomic performance. It scores with 360° mobility of the seat and back. At the same time, it promotes the micro-movements of he spinal column and stimulates the supply of nutrients to the ntervertebral discs. delv adapts to its users- thanks to the automatic weight detection. This is of particular advantage during conferences and desk sharing, when several people use the smart conference chair. The combination of top-quality materials, ergonomic innovation and contemporary design makes delv the ideal choice for use in prestigious offices.	Description of product

The product is free of halogenated plastics (PVC).

 $^{1}\,dry$ matter $^{2}\,uncured$ 3 acc. EG Reg. No 1272/2008

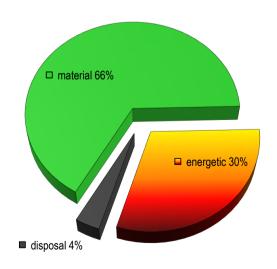

Material certificates

The following certificates are valid only for the mentioned raw-materials but not for the final product:

Shaped plywood: PEFC Standard - certificate 08.537.958, licence 08.537.958/1 Upholstery fabric: Oeko-Tex Standard100 - certificate 073313.O, product class II Upholstery materials: Oeko-Tex Standard100 - certificate AMM 17680, product class I

Recycling rate (EoL)

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 116 MJ. This is equivalent to 3,2 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
