batch

Hard core, soft shell.

With the skid-base chair *batch*, Wiesner-Hager has succeeded in combining a minimalist approach to design with technological sophistication: The graphic two-component shell has a hard core and a soft outer shell. This is why *batch* offers excellent sitting comfort despite its flat design – the usual pressure points on the edges cannot be felt. The possibility of densely stacking up to 30 chairs at a height of only 2 m is the prerequisite for space-saving storage. The rows are connected by means of a linking element integrated into the frame glides. A blend of chairs, with and without arms, can be interlinked and stacked.

The high density stacking chair is ideally suited for use in large rooms and multi-purpose areas such as conventions, conferences or seminars. Optional seat and row numbering that can be fitted without tools are also available. Although the plastic shell consists of two different components, the appearance is homogeneous. Its angular design coupled with the graphic skid frame made of 12 mm round steel is reminiscent of simple line drawings – the starting point for minimalism and reduction. An attractive selection of shell and frame colours together with numerous upholstery variants create a wide range of individual styles.

Design: Andreas Krob

# Rich in detail.

**Seat and row numbering**  
(optional) can be fitted without tools.

**Sitting comfort.**  
Thanks to the flexible edges of the two-component seat shell, the usual pressure points on the edges cannot be felt.

**Row linking.**  
The linking element is integrated into the frame glides.

**Seat shell in plywood.**  
The seat shell is available in six attractive colours and in beech or oak plywood.

**Stacking.**  
The possibility of densely stacking up to 30 chairs on the stacking trolley is the prerequisite for space-saving storage.

**Upholstery.**  
On request, the sled base chair is available with upholstered seat or fully upholstered seat shell.

# Optional.

**6800 Sled base chair**

Plastic seat shell, without upholstery, seat upholstered or fully upholstered  
H 845 / SH 440 / W 565 / D 540  
centre-to-centre distance 548 mm

**6802 Sled base chair with arms**

Plastic seat shell, without upholstery, seat upholstered or fully upholstered  
H 845 / SH 440 / W 565 / D 540  
centre-to-centre distance 548 mm

**6801 Sled base chair**

Seat shell in beech or oak plywood, without upholstery or seat upholstered  
H 810 / SH 440 / W 565 / D 540  
centre-to-centre distance 548 mm

**6803 Sled base chair with arms**

Seat shell in beech or oak plywood, without upholstery or seat upholstered  
H 810 / SH 440 / W 565 / D 540  
centre-to-centre distance 548 mm

W= width / D = depth / SH = seat height / H = total height / dimensions in mm

## Standard models:

### Sled base chair 6800 & 6802:

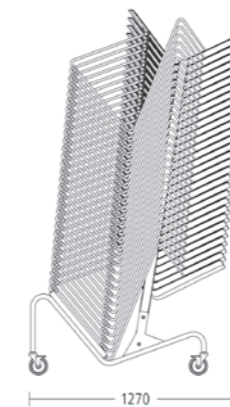

Round steel frame, plastic glides with integral linking element. Two-component plastic seat shell. Stacking dish made of foam. Metal surface powder-coated.  
**Comfort arm pads (optional):** Black plastic.

### Sled base chair 6801 & 6803:

Round steel frame, plastic glides with integral linking element. Seat shell in beech or oak plywood. Stacking dish made of foam. Metal surface powder-coated.  
**Comfort arm pads (optional):** Black plastic.

### Note:

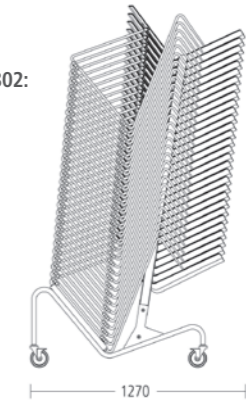

A blend of chairs, with and without arms, can be interlinked and stacked. The centre-to-centre distance uniformly is 548 mm.

### Stacking: Models without upholstery:

**Stacking chair 6800 & 6802:**  
max. 8 chairs on the ground:  
H = 1080 mm  
max. 30 chairs on stacking trolley 6391-000:  
H = 1950 mm

**Stacking chair 6801 & 6803:**  
max. 8 chairs on the ground:  
H = 1040 mm  
max. 30 chairs on stacking trolley 6391-000:  
H = 2020 mm

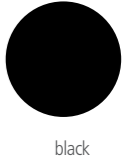

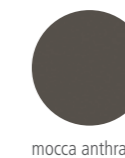

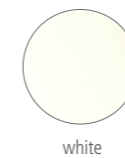

### Upholstered models:

**Stacking chair 6800 & 6802:**  
max. 4 chairs on the ground:  
H = 1010 mm  
max. 23 chairs on stacking trolley 6391-000:  
H = 1980 mm

**Stacking chair 6801 & 6803:**  
max. 4 chairs on the ground:  
H = 980 mm  
max. 19 chairs on stacking trolley 6391-000:  
H = 1950 mm

## Colours of the plastic seat shells:

batch comfort

Formal minimalism combines  
with maximum seating comfort.

**Formal minimalism combines with maximum seating comfort.**

*batch comfort* is an extension of the successful skid-base chair with a version featuring luxuriant upholstery. Here, the minimalism of the delicate, graphic, round tubular frame combines with decidedly generous upholstery to lend the chair a homely, comfortable charm. The voluminous comfort upholstery is both visually appealing and pleasant to the touch, creating an interesting contrast to the graceful skid base. *batch comfort* can be stacked and linked and can be found in many areas of office architecture as well as in hotels and convention centres – especially in working cafés, conference lobbies, entrance areas, waiting zones and libraries.
