Communication in motion.

Workshops, training sessions, meetings, project work – the demands placed on the space available for teams and for collaboration are diverse. With ***spyn***, Wiesner-Hager has developed a mobile flip-top table that caters to the mostly very limited space available in offices thanks to its flexible range of applications. With this mobile folding table, changing configurations quickly to suit the particular application intended becomes child's play. Tables that are not needed can simply be swivelled and parked in a row to save space.

Design: delphin design

spyn is also offered as a mobile standing table. Shorter meetings in particular are often held while standing in order to infuse added agility into project groups and teams. This facilitates interaction with visualisation media and multimedia technology. It also promotes free thinking, creative brainstorming and a change of perspective. With the standing table, too, the patented swivel mechanism of the table top quickly creates space when the tables are no longer needed.

Promotes agile working.

Rich in Detail.

Park & Ride:
Tables that are not in use can be parked to save space.

Modesty panel
for conference use, on the podium or for a presentation.

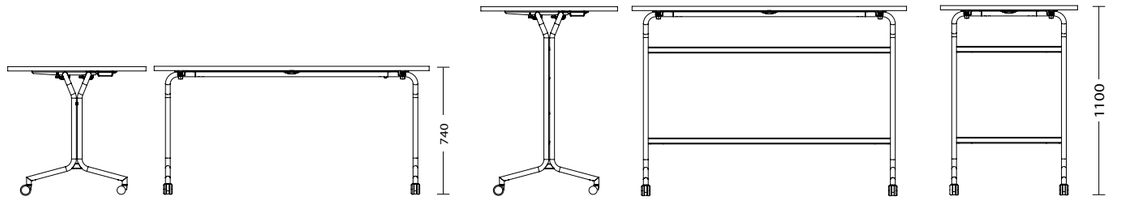
Swivel mechanism
that enables the table top to be folded easily and securely.

Links quickly.
Lateral or cross linking possible.

Optional.

Rectangular table | Rectangular high table | Square high table

Rectangular table | Rectangular high table | Square high table | Corner slot-in leave



Tables | High tables

Dimensions in mm

Standard model:

Table tops: choice of laminate (MFC) or HPL top with seamless, moisture resistant laser edge (ABS edge). Table tops can be flipped 90 degrees. The flip mechanism is unlocked by turning a handle underneath the top. Flipped tables can be compactly nested in a row next to each other.

Corner slot-in leave (optional for rectangular table 3453):
finish same as table tops, but including 4 linking devices.
Note: lateral linking devices required for tables.

Frame: top support sheet steel, black powder-coated. Side parts steel tube Ø 28 mm, powder-coated. With frame in chrome: upper part of the cross beam is black powder-coated. Black twin wheel castors Ø 60 mm. Castors lockable on user side (side where handle is mounted), opposite castors not lockable.

Electric cabling (optional):
Built-in socket *Circle80*:
80 mm Ø, 1 x Schuko, 1 x double USB charger type A + C, permanently fixed power cable (1 m, GST18 plug), cable outlet with integrated slider for cable locking, 1 opening to insert cover plates (optional), black, white or stainless steel effect plastic.

Square built-in power socket basic or flat:
Built-in power socket 2-fold, black plastic.
Important note: cables for wiring under the table are not included in the scope of delivery.
Horizontal cable channel:
textile cable channel, anthracite. Fastening with Velcro.

Accessories (optional):
Modesty panel height 320 mm (optional for rectangular table 3453):
perforated sheet steel, pivoting mounted, powder-coated.

Linking device (optional):
steel and plastic. Lateral or cross linking possible.

Important note:
we recommend the use of linking devices for table configurations, otherwise the table tops may not be level if the floor is uneven.
