# paro\_2

office swivel chairs.

More than 600,000 people have already chosen **paro**, making it the No. 1 office chair in Austria. The swivel chair family **paro\_2** is the update of this bestseller. **paro\_2** affords even more functions and excellent seating comfort – at a consistently high quality level and an extremely attractive price.

**Specification options:**  
black plastic or polished aluminium swivel base. Either soft castors for hard floors or hard castors for soft floors.  
**Cantilever:** precision tubular steel frame, powder-coated (55 eloxal silver) or chrome metal surfaces, optionally with plastic glides or felt glides.

**Arm options (surcharges apply):**  
**Height-adjustable arms:** adjustable in height and width, with soft arm pads. Arm supports either black plastic or polished aluminium.  
**Multifunctional arms:** swivelling, soft arm pads, adjustable in height, width and depth. Arm supports either black plastic or polished aluminium.

**Functions:**  
synchro-mechanism with lateral tension control (from 40 to 120 kg), lockable in several positions. Seat height adjustment via gas spring acc. to DIN 4550 and depth suspension. Seat depth adjustment via sliding seat (range of adjustment: 50 mm). Height-adjustable backrest (range of adjustment: 50 mm).

**Upholstery:**  
**Swivel chair:** seat upholstery fabric *radio*. Back either covered with black mesh or upholstered: backrest analogous to the seat upholstery (*radio* S3140: rear of backrest fabric Trevira CS black).  
**Cantilever chair:** seat upholstery fabric *radio* black S3140. Back either covered with black mesh or upholstered in black.

Arrive – sit down – get started: The modern working world creates new demands on products. These should be immediately functional, easy to understand and suitable for use by different people. In terms of office chairs, this means that no one wants to take the time to adjust countless levers in order to finally sit comfortably. This trend towards rigorous simplification is reflected in the **motiv** range of office chairs with automatic weight recognition.

**Specification options:**  
Black plastic or polished aluminium swivel base. Either soft castors for hard floors or hard castors for soft floors.  
**motiv:** Frame construction of backrest black polyamide.  
**motiv\_s:** Backrest support black polyamide.

**Arms (optional):**  
**Ring armrests:**  
Black plastic, adjustable in width.  
**Height-adjustable arms:**  
Adjustable in height and width, with soft arm pads. Arm supports black plastic or polished aluminium.

**Multifunction arms:**  
Swivelling pads, adjustable in height, width and depth, with soft arm pads. Black plastic or polished aluminium arm supports.  
**Functions:**  
Twist-Balance Mechanism for automatically regulated pressure on the backrest and automatic weight detection. Lockable in the foremost position. Ergonomic mobility of the seat and back for dynamic sitting. Seat height adjustment via black gas spring acc. to DIN 4550 and depth suspension.

**Upholstery:**  
**motiv:**  
Seat upholstery fabric *radio* black S3140, back optionally with black mesh 207 or inner back upholstered, rear of backrest with black mesh.  
**motiv\_s:**  
Seat and back upholstered, fabric *radio* black S3140.

“  
The ergonomic design of  
motiv combines a dynamic  
seating philosophy with  
trendsetting kinetics.

# poi

## office swivel chairs.

Swivel chair with height-adjustable arms

5431-101A assembled

Swivel chair with multifunctional arms

5433-101A assembled

*poi* represents a completely new generation of swivel chairs: the perfect combination of aesthetics, comfort and well-engineered ergonomics makes *poi* both unique and economically attractive. The characteristic feature of *poi* is the elegant monocoque design. The ergonomic and dynamic back frame in black or white is covered with a semi-transparent net mesh.

### Specification options:

black plastic or polished aluminium swivel base. Braked twin wheel castors Ø 60 mm either with hard running surface for soft floors or soft running surface for hard floors. Black plastic operating elements and arms. Seat and frame construction of backrest black or white polyamide.

### Arms:

#### Height-adjustable arms:

adjustable in height and width, with soft arm pads. Arm supports black plastic.

**Multifunctional arms:** swivelling pads, adjustable in height, width and depth, with soft arm pads. Polished aluminium arm support.

### Functions:

seat and backrest inclination can be fixed in several positions via synchro-mechanism. Quick tension spring adjustment from 45 to 120 kg with only two and a half turns of the lateral hand-wheel. Adjustment of seat depth via sliding seat. Infinitely variable seat height adjustment via gas spring type-tested acc. to DIN 4550 and depth suspension.

### Against surcharge:

adjustable lumbar support.

### Upholstery:

seat upholstery fabric *radio* black S3140, back with black mesh 210.

# point

## office swivel chair.

Swivel chair with height-adjustable arms	Cantilever
5420-101A assembled	6240-101A assembled

Ergonomically advanced, the **point** swivel chair combines a distinct expression in shape with a lightness of design. Most striking feature: the light transparent netting of the ergonomic backrest, shaped like a tight sail. A structure that provides effective lumbar support as well as conveying a feeling of lightness and harmony. **point** offers an excellent quality of seating through its patented synchronic height adjustment. The swivel-chair can be precisely adjusted to fit every size. **point** swivel chairs are everything to its office user, representing sophistication in design, simple operation and feeling good in the office.

### Specification options:

powder-coated aluminium five-star swivel base. Braked twin wheel castors either with hard running surface for soft floors or soft running surface for hard floors.

### Upholstery:

seat upholstery fabric *radio* black S3140, back with black mesh.

**Arms:** Aluminium armrest support and backrest profile, powder-coated backrest frame (55 eloxal silver). Black plastic operating elements.

### Functions:

patented synchronic adjustment of depth of seat and height of backrest; height adjustable arms; synchronic mechanism with tension spring adjustment, can be fixed in several positions. Seat height adjustable with gas lift acc. to DIN 4550, depth suspension.

### Specification options Cantilever:

precision tubular steel frame, powder-coated metal surfaces (55 eloxal silver), optionally with plastic glides or felt glides.

### Upholstery:

seat upholstery fabric *radio* black S3140, back with black mesh.

# nooi

conference chair.

Conference chair  
6630-503A flat-pack

The **nooi** series conference chair is the ideal partner for extended meetings: the revolving 4-star base and armrests of tubular steel offer comfort and flexibility for use at conferences, workshops and meetings.

**Specification options::**

aluminium die-cast four-star frame, polished or powder-coated. Braked dual castors Ø 50 mm optionally with hard running surface for soft floors or soft running surface for hard floors. Arms in tubular steel, powder-coated or in chrome (for polished frames). Polypropylene seat shell, fully upholstered.

## lounge & conference chair.

Lounge chair	Conference chair
6274-203A assembled 6274-503A flat-pack	6276-203A assembled 6276-503A flat-pack

High class, comfortable, and extremely versatile – this is **pulse**, the shell chair for luxury communication areas. Combining a design vocabulary alluding to the 1960s with modern elements makes the design both novel and distinct. The waistline of the shell appears inviting and enveloping at the same time. Sitting comfort is excellent: the shell dimensions allow ample room to move, the comfortably resilient backrest and the soft seat padding afford high comfort, even after hours of sitting.

### Specification options:

#### Lounge chair 6274:

four-legged frame of precision tubular steel Ø 18 mm, plastic glides. Powder-coated or chrome-plated metal surfaces. Fully upholstered seat shell.

#### Conference chair 6276:

aluminium die-cast four-star frame, polished or powder-coated, plastic glides. Fully upholstered seat shell.

# yuno

stacking table.

Stacking table	Stacking table
3940-624A flat-pack 600 x 1200 mm	3940-728A flat-pack 700 x 1400 mm

The stacking table **yuno** impresses with minimalist elegance combined with an innovative design concept: it adopts all the positive features of a folding table whilst avoiding its weaknesses. **yuno** stacks easily and compactly without the need to fold the frame, meaning a significant time saving when setting up and dismantling tables, as well as space-saving storage.

**Specification options:**

**Table tops:**  
lamine (MFC) with seamless, moisture-resistant laser edge (ABS edge).

**Frame:**  
Legs and cross beam tubular steel. Joints and table top support die-cast aluminium. Surface finish of cross beam and table top support is same as on legs. If chrome legs are specified, cross beam and table top support are black powder-coated. Plastic glides with castors, black.

**Cross-section:**  
leg 50/20 mm, cross beam 30/15 mm.  
Powder-coated or chrome-plated metal surfaces.
