Environmental Product Declaration

EPD

Design: neunzig° design

Viesner-Hager Möbel GmbH	Manufacturer
inzer Straße 22	Declaration holder
A-4950 Altheim	
el. 0043 7723 460-0	
http://www.wiesner-hager.com/en/	
TA 22012 1634 7830-836 03297740010	EPD number
7830-836 furniloop	Declared product
urniloop Rectangular table symmetrical frame	
This declaration was compiled according to ISO 14025 and EN 15804 type B. It describes the environmental rating of the listed product and gives the possibility o compare it with other similar products.	Purpose
The content of this declaration is based on the results of the operational life cycle assessment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used generic data comes from acknowledged life cycle management databases and current EPD's of the declaration holders upstream products and are calculated using the CML method. https://www.wiesner-hager.com/en/about-us/sustainability/life-cycle-assessment/	Data origin
The procedure to compile this declaration was audited on 14 th September 2023 by TÜV Austria GmbH.	Auditing
DiplIng. Dr. Jürgen Hain, TÜV Austria GmbH, Wien	Auditor
By means of the certificate TA 22012 1634 from 26 th September 2023, TÜV Austria GmbH authorizes the declaration holder to generate EPD type III.	Certification
The certificate is valid until 30 th September 2026. The compliance of the equirements will be ensured by annual, internal and external evaluations.	Validity
Gerhard Steigthaler, Master of Sciene, environmental engineer	Issuer

The general information of the LCA refers to whole lifecycle, beginning with the raw material make, the manufacturing of the product until the disposal of <i>one</i> unit of the product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass.	Functional unit

Office culture meets circular economy. The name furniloop symbolises the	Description of
cycle of the product or its components. The prerequisites for refurbishing reusable components were established right from the product design stage. It is the goal of the design process to significantly reduce the consumption of material resources and lower CO2 emissions. Acting with ecology in mind should not be a tedious chore. It requires products that are sustainable and durable and that excel through intelligent features and creative design. It is precisely this combination which defines the conceptual approach of furniloop.	product

Material certificates

The following certificates are valid only for the mentioned raw-materials but not for the final product:

Chipboards MDF: FSC Standard - certificate SGSCH-COC-110046, licence CH17/0899.00 Chipboards MDF: FSC Standard - certificate TSUD-COC-000079, licence FSC-C011773 Chipboards MDF: FSC Standard - certificate SGSCH-COC-110039, licence FSC-C017963

Recycling rate (EoL)

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 394 MJ. This is equivalent to 11 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
