6290-101 poi	Declared product
poi Conference chair with auto-return mechanism	
This declaration was compiled according to ISO 14025 and EN 15804 type B. It	Purpose
describes the environmental rating of the listed product and gives the possibility	
to compare it with other similar products.	
The content of this declaration is based on the results of the operational life cycle	Data origin
assessment, according to EN ISO 14040/44 of the fiscal year 2022/23. The used	
generic data comes from acknowledged life cycle management databases and	
current EPD's of the declaration holders upstream products and are calculated	
using the CML method.

The procedure to compile this declaration was audited on 14 th September 2023	Auditing
by TÜV Austria GmbH.	
DiplIng. Dr. Jürgen Hain, TÜV Austria GmbH, Wien	Auditor
By means of the certificate TA 22012 1634 from 26 th September 2023, TÜV	Certification
Austria GmbH authorizes the declaration holder to generate EPD type III.

Functional unit	The general information of the LCA refers to whole lifecycle, beginning with the raw material make, the manufacturing of the product until the disposal of <i>one</i> unit of the product with an anticipated lifespan of 15 years. But the division of impact factors with the masses of the product allowes also a specific statement in mass.

Identification of	6290-101 poi			
product	poi Conference chair with auto-return mechanism, seat upholstered, back with mesh			
Description of	poi represents a completely new generation of swivel chairs: the perfect			
product	combination of aesthetics, comfort and well-engineered ergonomics makes poi both unique and economically attractive. The characteristic feature of poi is the elegant monocoque design. The colour variations of the seat upholstery add a certain touch to the office and make poi versatile- stylish, classy, or young and fresh. The ergonomic and dynamic back frame in black or white is covered with a semi-transparent net mesh. poi stands for high seating comfort. By means of the laterally arranged quick adjustment of spring force the reclining pressure can be adapted to the body weight via two and a half turns at most. The next-generation synchro-mechanism permits a finely coordinated movement of seat and back. A sliding seat permits the horizontal adjustment of the seat depth. In combination with the height adjustable lumbar support, the infinitely variable seat height, and the multi-dimensional armrest the chair can be perfectly adapted to the body height.

#### **Material certificates**

The following certificates are valid only for the mentioned raw-materials but not for the final product:

Upholstery fabric: Oeko-Tex Standard100 - certificate 073313.O, product class II Upholstery materials: Oeko-Tex Standard100 - certificate AMM 17680, product class I

## Recycling rate (EoL)

The chart shows the presently usual recycling rate in Western Europe, based on the used material mix.

The thermal recycling will release energy to the amount of 200 MJ. This is equivalent to 5,6 litre of light fuel oil.

The remaining ash from the incineration will be disposed of in a landfill.
