

m. zone

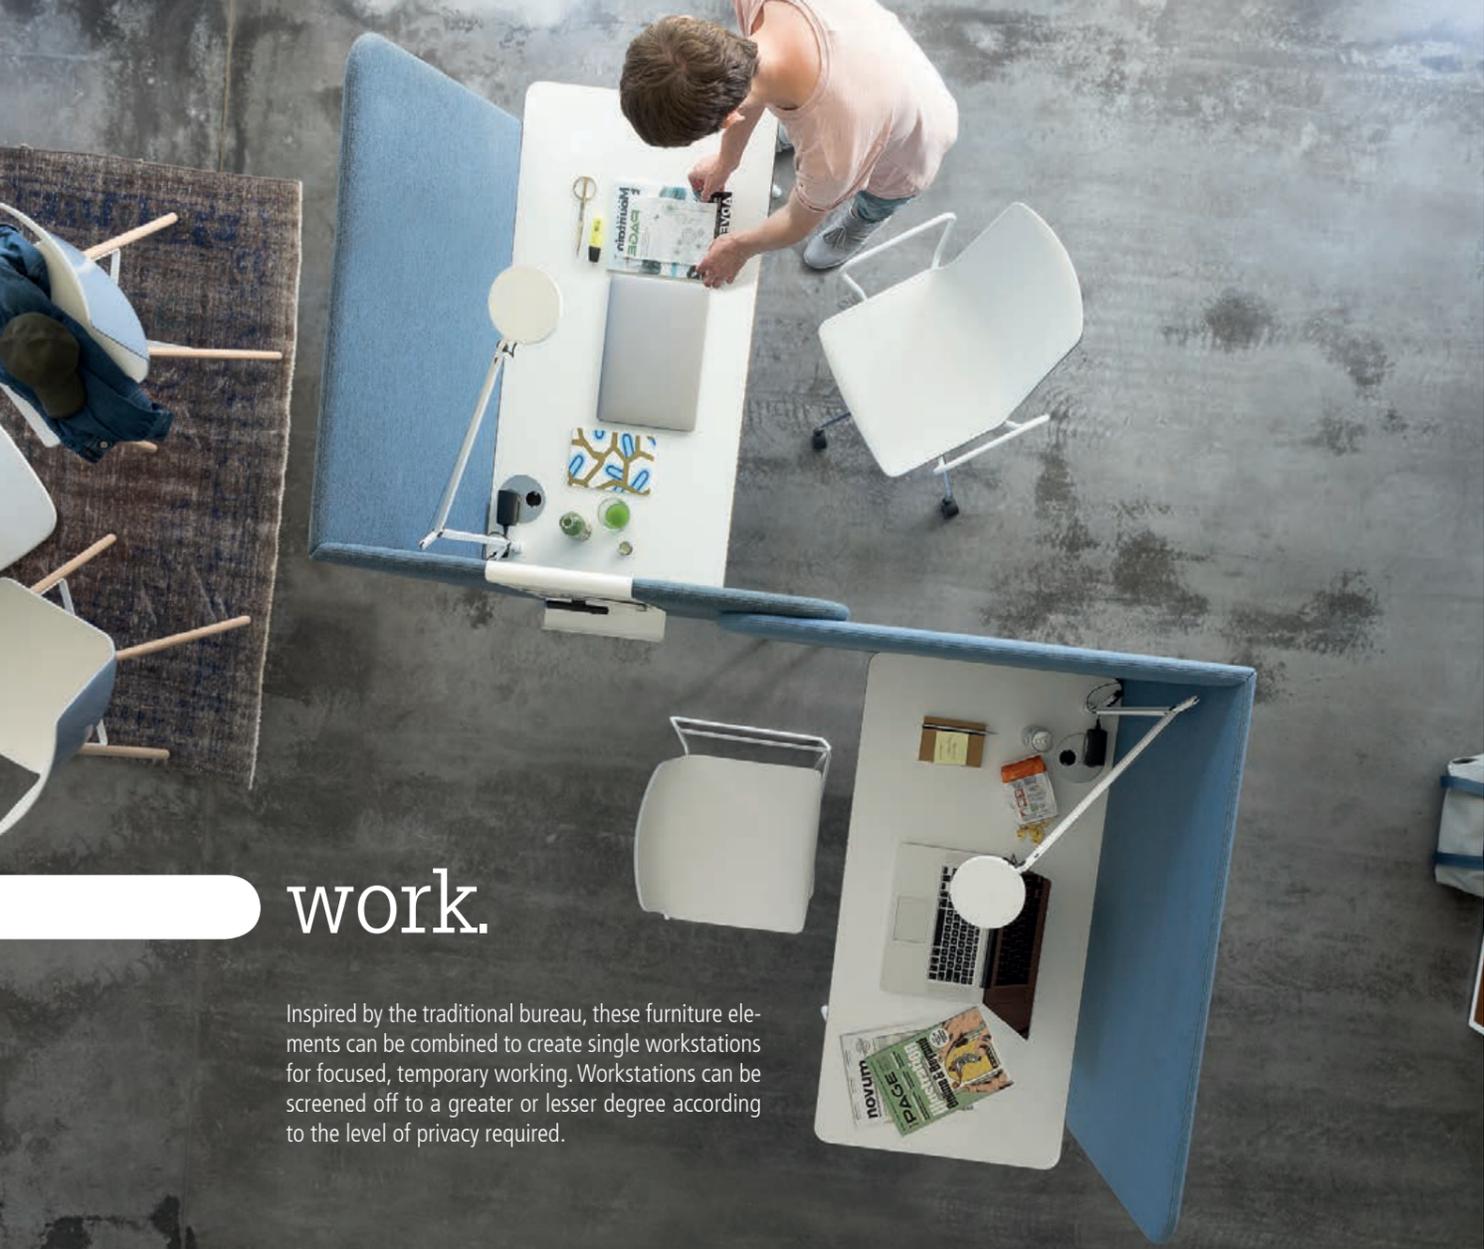

Get in the zone.

Future offices need to provide employees with differentiated, versatile work environments which offer supportive settings for a variety of activities. Rigid spatial structures are disappearing. Space needs to be designed around the tasks that are to be performed. "Activity Based Working" is the order of the day. With *m.zone*, Wiesner-Hager has developed a mould-breaking interior design concept for offices which is perfectly suited to the organisation of agile businesses. *m.zone* consists of individual elements such as

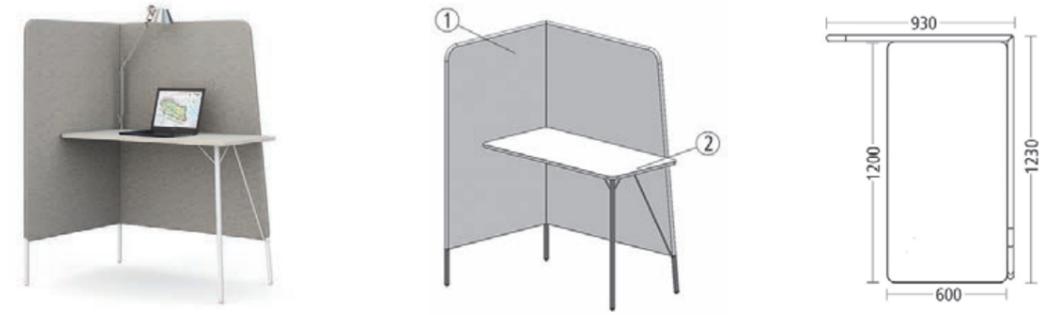

room dividers, modular and standalone furniture pieces, which can be combined flexibly to create new working environments to suit client's individual ideas and needs. As it is highly versatile, *m.zone* is ideal for a wide range of application areas within the office architecture: Open plan offices, collaborative spaces and lounges, as well as reception and waiting areas.

Design: LUCY.D

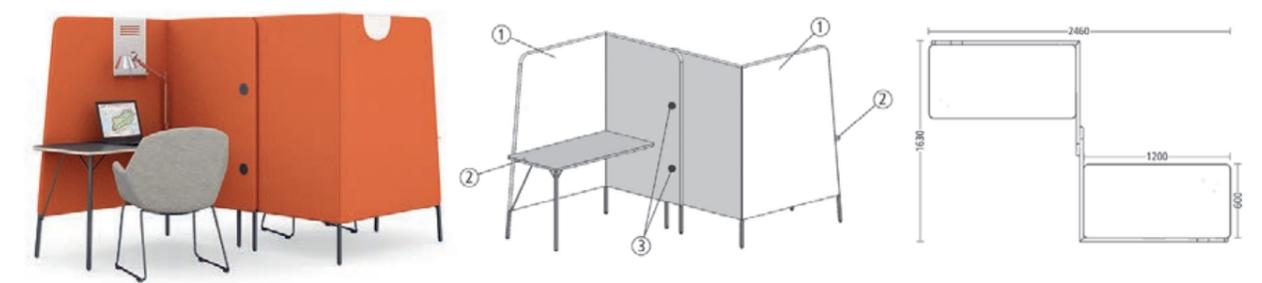

work.

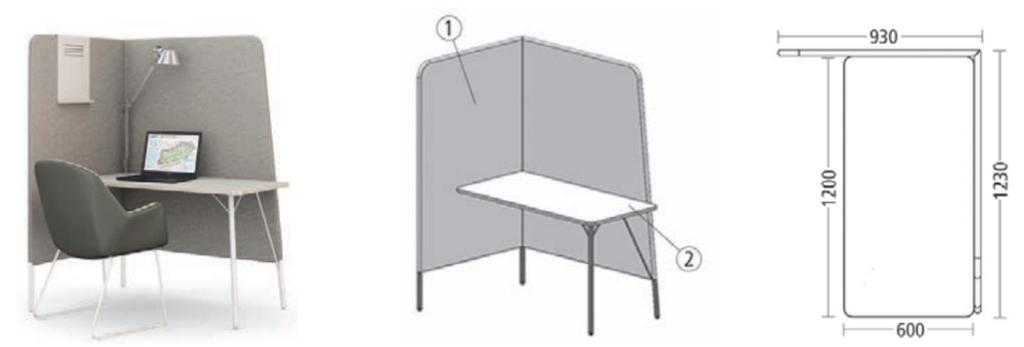

Inspired by the traditional bureau, these furniture elements can be combined to create single workstations for focused, temporary working. Workstations can be screened off to a greater or lesser degree according to the level of privacy required.

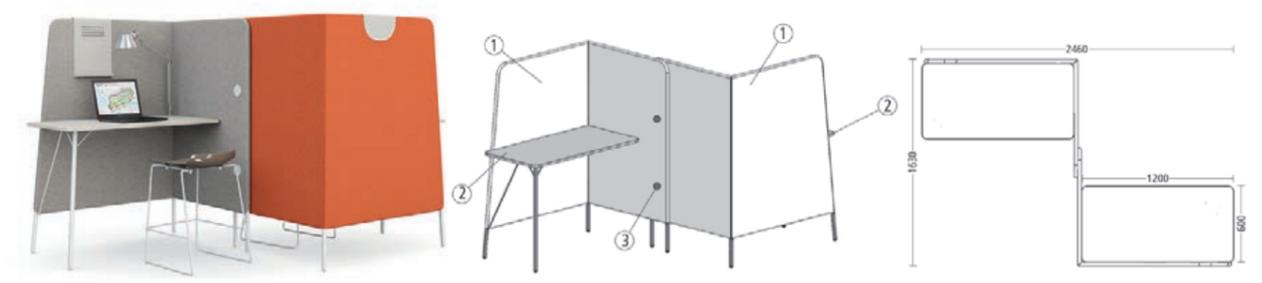

m.zone single left – worktop height 900 mm
 consists of:

Standard models:

Screens:

Screen 2300 to 2303, 2315:

Fabric-covered panel, plastic glides. Acoustic finish optional.

Screens 2307 to 2311:

Fabric-covered panel, foot tubular steel, plastic glides. Acoustic finish optional. Metal surfaces powder-coated acc. to WH collection.

Whiteboard 2316:

Fabric-covered panel, plastic glides. Whiteboard of laminate (MFC) 16 mm with seamless, moisture-resistant laser edge (ABS edge), front covered with white foil.

Important note for screens:

Covering in leather and synthetic leather is not possible.

Connector 2340:

Connector element steel for screens, Ø 80 mm. Metal surface powder-coated acc. to WH collection.

Worktops:

Choice of laminate (MFC) top with seamless, moisture-resistant laser edge (ABS edge) or HPL top with bevelled edge (Multiplex), oiled. Worktop 2328 to 2331 with support tubular steel, plastic glides. Metal surface powdercoated acc. to WH collection.

Electrification (optional for worktops):

Round built-in power socket:

Closable socket, 2-fold (Schuko/BEK). Matt chrome finish.

Rectangular built-in power socket flat:

Built-in power socket 2-fold (Schuko/BEK/GB), black plastic.

Cloud:

Steel framework with fabric covering, tubular steel foot, plastic glides. Table top of HPL with bevelled edge (Multiplex), oiled. Metal surfaces powder-coated acc. to WH collection.

Optional: Lamp Above (built-in power socket required).

Built-in power socket FrameDock including mount for lamp (2 x Schuko/BEK/GB, ON/OFF switch).

Armchair, couch and ottoman:

Seat and back fully upholstered, seat upholstery with top-stitched seams, foot tubular steel, plastic glides. Metal surface powdercoated acc. to WH collection.

Electric socket for armchair or couch:

2 x Schuko socket with child safety, black, incl. mains connector cable with Schuko/BE right-angle plug, cable length ca. 290 cm.

Table pub, table talk, hot desk, coffee table:

Choice of laminate (MFC) top with seamless, moisture-resistant laser edge (ABS edge) or HPL top with bevelled edge (Multiplex), oiled. Frame tubular steel, adjustable plastic glides. Metal surfaces powder-coated acc. to WH collection.

Bench pub:

Top laminate (HPL) with bevelled edge (Multiplex), oiled. Frame tubular steel, plastic glides. Metal surfaces powder-coated acc. to WH collection.

Table board, connecting shelf and memo board:

Steel, metal surface powdercoated acc. to WH collection.

Note:

Table board double only possible in combinations armchair-couch and couch-couch.

Suspended shelf:

Choice of laminate (MFC) or HPL top with seamless, moisture-resistant laser edge (ABS edge). Suspension element steel plate. Metal surface powder-coated acc. to WH collection.
