The **spyn** whiteboard set has been specially developed for requirements in creative working and communication settings. The mobile use supports quickly changing tasks. The centrepiece of the set is the whiteboard for writing on both sides. With a size of 180 x 80 cm and a weight of only 7 kg, it can easily be used in a flexible way. In combination with the appropriate stool, it is self-contained. Alternatively, the whiteboard can lean against the wall or hang on it. At two edges, the board is magnetic – to accommodate pens, board erasers, or flipchart holders. A special stool is used for accommodating up to three whiteboards. This stool can also be used for sitting, or – with three elements stacked on top of each other – as a lectern. The trolley adapted to the stool turns the whiteboard set into a mobile unit. A wall mount bracket for vertical or horizontal hanging of the whiteboard makes the set complete.
