m.zone Talk bar chair:

High-comfort seating

The *m.zone Talk bar chair* exudes a homely emotionality that contrasts with the technical office world. The round shape of the seat shell is enclosed by a semi-circular backrest. This unit creates a serene, harmonious, soft effect that is self-contained. The generous backrest offers safety and plenty of freedom of movement. It also serves as an armrest. In contrast to the seat shell, the functional frame made of 18 mm precision steel tubing adopts a minimalist design approach.

To sum up: With its serene, homely overall appearance, the *m.zone Talk bar chair* blends into any setting and is consequently also very versatile - in combination with high tables in offices as well as in bars, cafeterias and bistros.

Design: delphin design
